

Certificate of Attendance

Delegate Name Kishan Mistry

GDC Number 277250

Course

Course Title DFT Whiston - Inlay Fitting, Copy Dentures, Composites (NW181012FWHN)

Course Date 12 October 2018

Course Venue Whiston Education, Training & Conference Centre, Whiston

Development Outcomes B, D

Verifiable CPD Hours 6

Certificate Issued By HEE - North West

Certificate ID HEENW053557

Course Aims

To show techniques and methods used when cutting anterior composite cavities. To show T & M used for copy dentures, to demonstrate the fitting of composite inlays

Course Objectives

To reinforce delegates knowledge in anterior composites and to teach copy denture technique

We confirm that the activity has been quality assured by HEE and that it meets the GDC's educational criteria for verifiable ECPD. This record is full and accurate.

Course Learning outcomes

By the end of the day delegates should be confident in the techniques and methods demonstrated and practiced

Reflection

Reflection is an important part of CPD and should form part of your personal development plan (PDP). Please use this page to reflect on what you have learnt, your experience and how it applies to your role. In particular consider:

1. What did you learn (or confirm) from the activity that was helpful or relevant to your daily work and patients?
2. Did you identify any changes/updates needed in your daily work? If so please give details.
3. How will you make these changes and by when?
4. How can you demonstrate that you have implemented these changes as a result of the course?
5. If you didn't identify any changes needed, what did the activity confirm for you, that you may already know or be doing?
6. What was the benefit to your work and/or your patients in carrying out this activity?
7. Do you feel that the activity met the General Dental Council's ECPD development outcomes? If not, please explain why.
8. Any other comments, thoughts or feelings?

Reviewing radiographs, veneer prep, dentine bonded crown prep, PFM prep, helping patients with emergency situations > gaps

Veneer preps + dentine bonded crowns. Have not formally been taught these at uni.

How cavit can be used with putty matrices to help produce better temps

Triage patients + those requiring veneers

more confidence in reviewing radiographs. More treatment options available
