

Certificate of Attendance

Delegate Name Kishan Mistry

GDC Number 277250

Course

Course Title DFT Liverpool and Whiston - Periodontology and Peri-Implantitis (NW190125FLVWHN)

Course Date 25 January 2019

Course Venue Regatta Place, Liverpool

Development Outcomes A, C, D

Verifiable CPD Hours 6

Certificate Issued By HEE - North West

Certificate ID HEENW057020

Course Aims

- Revise NHS rules and regs around Perio
- Review Perio diagnosis and misdiagnosis
- Review treatment strategies for perio treatment including adjuncts
- Look at implant monitoring and maintenance

Course Objectives

- Ensure that the group are confident to treat Perio on the NHS, understand their obligations, know when to refer and how to use adjuncts at the appropriate time.

We confirm that the activity has been quality assured by HEE and that it meets the GDC's educational criteria for verifiable ECPD. This record is full and accurate.

Course Learning outcomes

- After this day, the FDs should feel confident to discuss a whole range of periodontal issues, know their obligations, know when to refer and how to monitor dental implants.

Reflection

Reflection is an important part of CPD and should form part of your personal development plan (PDP). Please use this page to reflect on what you have learnt, your experience and how it applies to your role. In particular consider:

1. What did you learn (or confirm) from the activity that was helpful or relevant to your daily work and patients?
2. Did you identify any changes/updates needed in your daily work? If so please give details.
3. How will you make these changes and by when?
4. How can you demonstrate that you have implemented these changes as a result of the course?
5. If you didn't identify any changes needed, what did the activity confirm for you, that you may already know or be doing?
6. What was the benefit to your work and/or your patients in carrying out this activity?
7. Do you feel that the activity met the General Dental Council's ECPD development outcomes? If not, please explain why.
8. Any other comments, thoughts or feelings?

Revise NHS rules and regs around Perio
Review Perio diagnosis and misdiagnosis
Review treatment strategies for perio treatment including adjuncts
Look at implant monitoring and maintenance

New NHS regulations
How to monitor and treat peri-implantitis

More confidence in my treatment

We have many implant patients at our surgery, I would be able to know how to monitor for mucositis and peri-implantitis and how to treat accordingly.
