

Certificate of Attendance

Delegate Name Kishan Mistry

GDC Number 277250

Course

Course Title DFT Whiston - Introduction to Periodontal Surgery
(NW190215FWHN)

Course Date 15 February 2019

Course Venue Whiston Education, Training & Conference Centre, Whiston

Development Outcomes A, C, D

Verifiable CPD Hours 6

Certificate Issued By HEE - North West

Certificate ID HEENW057034

Course Aims

To allow delegates to understand where periodontal surgery fits within the disease management cycle and what techniques are available.

To allow delegates to understand how crown lengthening is done and how it can facilitate more predictable restorative treatments.

Course Objectives

Increase awareness of periodontal surgery and its role.

Increase awareness and surgical skills in crown lengthening.

We confirm that the activity has been quality assured by HEE and that it meets the GDC's educational criteria for verifiable ECPD. This record is full and accurate.

Course Learning outcomes

Question and answer sessions and supervision of the practical exercises.

Reflection

Reflection is an important part of CPD and should form part of your personal development plan (PDP). Please use this page to reflect on what you have learnt, your experience and how it applies to your role. In particular consider:

1. What did you learn (or confirm) from the activity that was helpful or relevant to your daily work and patients?
2. Did you identify any changes/updates needed in your daily work? If so please give details.
3. How will you make these changes and by when?
4. How can you demonstrate that you have implemented these changes as a result of the course?
5. If you didn't identify any changes needed, what did the activity confirm for you, that you may already know or be doing?
6. What was the benefit to your work and/or your patients in carrying out this activity?
7. Do you feel that the activity met the General Dental Council's ECPD development outcomes? If not, please explain why.
8. Any other comments, thoughts or feelings?

To allow delegates to understand where periodontal surgery fits within the disease management cycle and what techniques are available.

To allow delegates to understand how crown lengthening is done and how it can facilitate more predictable restorative treatments.

Increase awareness of periodontal surgery and its role.

Increase awareness and surgical skills in crown lengthening.

How to surgically reduce pockets through apically positioned and resected flaps.

How to properly crown lengthen

A possible approach for patients unresponsive to subsequent non-surgical periodontal therapy

Improved patient outcomes/confidence

It is important that you keep this certificate for your records - the General Dental Council (GDC) may request details of the courses you have attended. Please complete the reflection questions to comply with the GDC verifiable requirements.
