

Certificate of Attendance

Delegate Name Kishan Mistry

GDC Number 277250

Course

Course Title DFT Whiston - Mind Mapping Workshop for Dentists
(NW190301FWHN)

Course Date 1 March 2019

Course Venue Whiston Education, Training & Conference Centre, Whiston

Development Outcomes A, B, C, D

Verifiable CPD Hours 6

Certificate Issued By HEE - North West

Certificate ID HEENW060442

Course Aims

To introduce mind mapping techniques for use in dentistry including postgraduate study

Course Objectives

To introduce the concept of mind mapping

To describe the fundamentals of the technique

To discuss the applications of mind mapping

To work on practical examples in dentistry

To discuss study techniques using mind mapping

To introduce mind mapping software

We confirm that the activity has been quality assured by HEE and that it meets the GDC's educational criteria for verifiable ECPD. This record is full and accurate.

Course Learning outcomes

As a result of the session delegates will be able to use mind mapping to organise their thoughts for use in dental treatment planning, studying and related activities

Reflection

Reflection is an important part of CPD and should form part of your personal development plan (PDP). Please use this page to reflect on what you have learnt, your experience and how it applies to your role. In particular consider:

1. What did you learn (or confirm) from the activity that was helpful or relevant to your daily work and patients?
2. Did you identify any changes/updates needed in your daily work? If so please give details.
3. How will you make these changes and by when?
4. How can you demonstrate that you have implemented these changes as a result of the course?
5. If you didn't identify any changes needed, what did the activity confirm for you, that you may already know or be doing?
6. What was the benefit to your work and/or your patients in carrying out this activity?
7. Do you feel that the activity met the General Dental Council's ECPD development outcomes? If not, please explain why.
8. Any other comments, thoughts or feelings?

To introduce the concept of mind mapping

To describe the fundamentals of the technique

To discuss the applications of mind mapping

To work on practical examples in dentistry

To discuss study techniques using mind mapping

To introduce mind mapping software

How to effectively mind map

How to assign things to remember to 'pegs' to enable better recall
different ways to record patient notes

Mind mapping clinical problems

improved confidence in my problem solving

It is important that you keep this certificate for your records - the General Dental Council (GDC) may request details of the courses you have attended. Please complete the reflection questions to comply with the GDC verifiable requirements.
